Canada in a changing climate

## To What Degree? Canada in a changing climate

Space required: flexible

**Hosting information:** the exhibition package contains digital assets to allow venues to create a unique exhibition customized to their specific venue.

### DOWNLOAD AND DISPLAY!

Canada's changing climate is a deeply complex situation that presents us with both losses and opportunities. Adapting to it is challenging and necessary. This traveller shares Canadian stories; some hopeful, some disheartening, all true, and all happening right now.

Created in partnership with the Government of Canada and Canadian Geographic, **To What Degree?** Canada in a changing climate offers stories of people and ecosystems throughout Canada adapting in unique ways to our changing climate.

Using compelling photography and minimal text, these stories explore individual and community resilience in the face of extreme events like heat, storms and wildfires; changes in livelihood due to habitat shifts, and even opportunities for quality of life improvements.

### Target audience

- Adults
- Children and youth
- School groups

### Languages

- All exhibition elements are bilingual.

### Exhibition components

- 19 photo panels

### Support material

- Educational resources
- Promotional resources

### Space requirement

- Flexible

### Fees

- \$2,000 per 12-week period  
+ applicable taxes
