

# A Taste of Science

Presented by Nestlé Canada  
Supported by the Government of Canada  
and Bernardin

## A Taste of Science

Space required: 1,000 ft<sup>2</sup> (90 m<sup>2</sup>)

### Have you ever wondered why food spoils?

**A Taste of Science** highlights the role science plays in delaying food decay and keeping food nutritious and safe for us to eat. In this engaging experience, immerse yourself in an oversized “pantry” and discover what makes food spoil, and different food preservation techniques. You’ll find lots to feed your mind and imagination on the menu!

Produced by the Canada Agriculture and Food Museum, this quirky travelling exhibition will get audiences squirming at the sight of rotting food.

### Target audience

- Adults
- Children and youth
- School groups

### Languages

- All exhibition elements are bilingual

### Exhibition components

- Introduction element
- 5 Interpretative stations
